Adept at creating responsive designs, optimizing performance, and integrating APIs. Currently pursuing a B.Tech in Computer Science and eager to contribute to innovative tech solutions.

Skills

Languages: HTML, CSS, JavaScript, Python, SQL
Frameworks: React, Django, Node.js, Bootstrap
Tools: Git, GitHub, VS Code, Microsoft Office
Soft Skills: UX Design, Problem Solving, Troubleshooting

Experience

Full Stack Developer
Self-Employed — Britom | Remote | May 2024 - Present

- Designed and developed responsive websites for clients using React and Django. ● Built backend APIs with Django REST Framework and Node.js.
- Integrated third-party services and APIs for payment and form handling. ● Ensured cross-browser compatibility and performance optimization.

Projects

Britom Portfolio — Live Link (*https://britom247.github.io/Britom.github.io*) A personal portfolio site showcasing projects. Built with **HTML, CSS, and JavaScript**.

Noureesh Foods — Live Link (*http://noureesh-foods.netlify.app*) A full-stack e-commerce platform for a food business. Built with **React.js (frontend)**, **Node.js & Express (backend)**, and **MongoDB (database)**. Deployed using **Netlify** and **Render**. Features include authentication, product management, cart/checkout, and payment integration.

Carmint — Live Link (*https://britom247.github.io/Carmint.io*)
Developed a modern **car rental interface** with **React.js**, focusing on enhancing **UI/UX** and efficient **state management**.
